

We love to connect... engineers and technology

TOP-electronics is...

a knowledge-driven distributor, supporting innovation through personal connections, deep technical expertise, and reliable long-term partnerships.

- globally present, with offices around the world
- focused on customer requirements
- an ISO-certified company
- a specialized technology provider
- a knowledge-driven distributor and representative
- a partner of high-tech, world-leading manufacturers
- providing professional, technical and logistic support

Wireless and IoT

- 5G / LTE / GSM /GPRS
- GNSS
- Smart Modules
- Antennas

- Bluetooth
- LoRa
- ISM Band Modules / RF Transceivers

- LPWAN
- RFID
- RF Connectors and Cables

- RTLS Systems
- UWB
- Wi-Fi

Components | Semiconductors

- Microcontrollers
- Real Time Clocks
- Voice Control Modules
- Crystal Oscillators
- Resettable Fuses
- TVS Diodes
- Buzzers and Speakers
- Microphones
- Enclosures
- Audio Codecs
- Audio AD/AD Converters
- Audio Clock Generation and Jitter Reduction
- Display Interface SoC
- eMMC & SSD Memory
- RS-232 / RS-485 / RS-422
- CAN Transceivers
- Ethernet Switches
- GPIO expanders
- FPGAs

Power Conversion

- Linear / Switching regulators
- Power modules
- Supervisors
- Universal PMICs
- Battery Chargers
- Wall mount / Desktop Power Supplies
- Open Frame & Enclosed Power Supplies
- Medical Grade Power Supplies
- IPC Power Supplies
- AC-DC Power Supplies
- PV Inverters
- DC-DC Converters
- Power Adapters
- Power Filters
- Wireless Chargers

Precision Analog

- Power Operational Amplifiers
- PWM Amplifiers
- Precision ICs
- Integrated Power Modules
- Voltage References

Motion Control

- Stepper Motors
- Servo Systems

- BLDC Motors
- Motor Drivers

- Motion Controllers
- Encoders

Thermal Management

- Cooling Fans

- Peltier Devices

- Heatsinks & cooling systems

Displays

- TFT Displays
- E-paper Displays

- OLED Displays
- Round Displays

- LCD Modules
- Touch Displays

- Custom Glass Displays
- Display Evaluation Kits

Connectors and Cables

- Terminal Blocks
- Wire to Board
- Board to Board
- Circular Connectors

- I/O Connectors
- RF Connectors
- Power Jacks
- Data Cables

- FFC Cables
- RF Cables
- Custom Cable Assemblies
- Memory & SIM Card sockets

Test and Measurement

- Vector Network Analyzer
- Radiation Measurement System
- Cellular Network Analyzers

Innovate your design with TOP-electronics

TOP-electronics is a knowledge-driven distributor, supporting innovation through personal connections, deep technical expertise, and reliable long-term partnerships.

We offer a wide range of services to support your business at every stage of development and production.

Why choose TOP:

Knowledge & Experience:

Adequate assistance with your product development.

Complementary Products:

Providing multiple solutions for use in a single design.

Wide Product Range:

Access to cutting-edge products from top global suppliers.

Custom Solutions:

Tailored options for your unique design needs.

Expert Support:

Benefit from our technical expertise.

Efficient Logistics:

Streamlined supply chain solutions.

Global & Local:

Offices in EMEA, the Americas, and Asia.

Our mission is to help you turn your innovative ideas into market-ready products.

Your trusted technology partner

TOP-electronics can supply electronics for every application in diverse markets.

We offer tailored solutions for each market's unique challenges. Known for our value-added services, TOP-electronics supports design teams from concept to production, driving innovation, safety, and efficiency.

Let the TOP-team support you to enhance your industry's performance.
