

**We love to connect...
engineers and technology**

TOP-electronics is...

- a knowledge-driven distributor and representative
- a specialized technology provider
- focused on customer requirements
- a partner of high-tech world-leading manufacturers
- providing professional, technical and logistic support
- an ISO certified company
- globally present with offices around the world

Innovate your design with TOP-electronics

TOP-electronics is a knowledge-driven, technology provider, specialized in the distribution and representation of electronic components, modules and solutions.

We offer a wide range of services to support your business at every stage of development and production.

Why choose TOP:

Knowledge & Experience:

Adequate assistance with your product development.

Complementary Products:

Providing multiple solutions for use in a single design.

Wide Product Range:

Access to cutting-edge products from top global suppliers.

Custom Solutions:

Tailored options for your unique design needs.

Expert Support:

Benefit from our technical expertise.

Efficient Logistics:

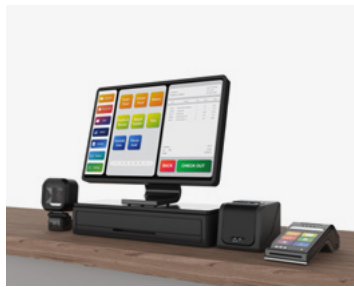

Streamlined supply chain solutions.

Global & Local:

Offices in EMEA, the Americas, and Asia.

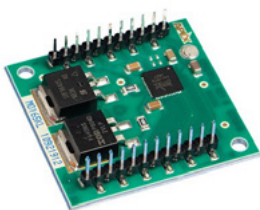

Our mission is to help you turn your innovative ideas into market-ready products.

Your trusted technology partner

Precision Analog

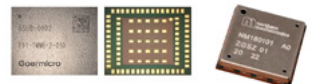

- Power Operational Amplifiers
- PWM Amplifiers
- Precision ICs
- Integrated Power Modules
- Voltage References

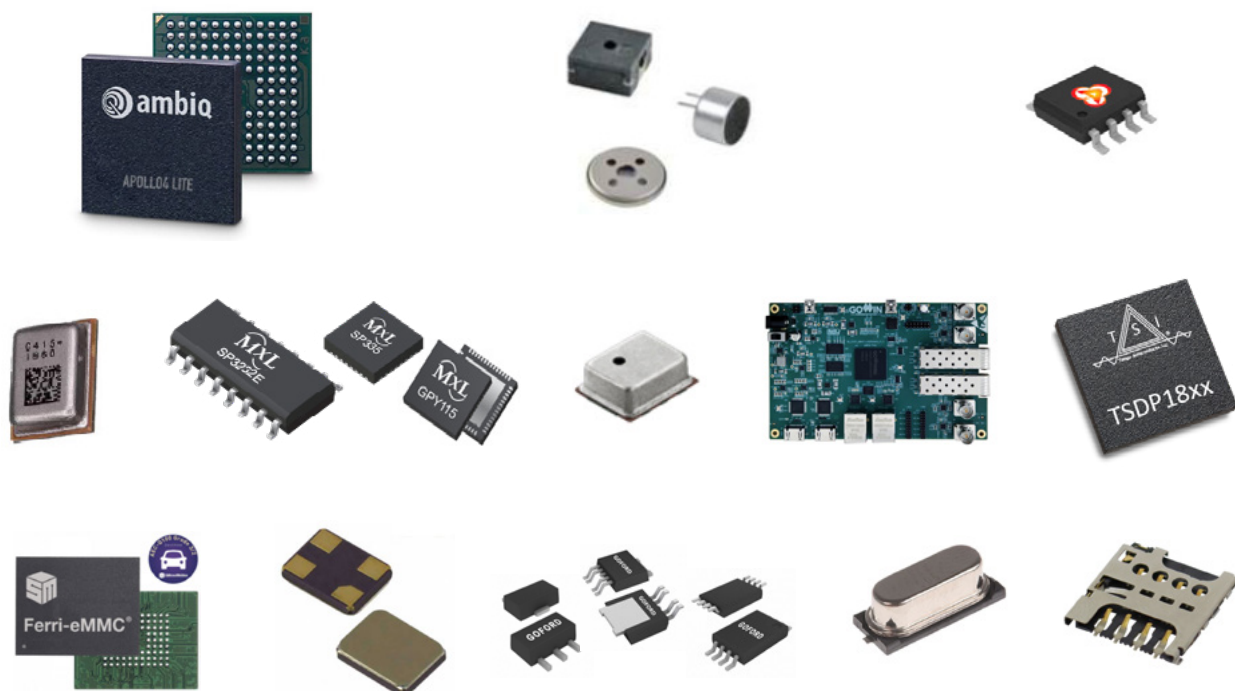

We love to connect... engineers and technology

Wireless and IoT

- 5G / LTE / GSM / GPRS
- GNSS
- Smart Modules
- Antennas
- Bluetooth
- LoRa
- ISM Band Modules / RF Transceivers
- LPWAN
- RFID
- RF Connectors and Cables
- RTLS Systems
- UWB
- Wi-Fi
- Zigbee

Components | Semiconductors

We love to connect... engineers and technology

Sensors

- Endoscope Camera Modules
- HD CMOS Camera Modules
- MIPI Camera Modules
- USB Camera Modules
- Raspberry PI Camera Modules
- Thermal Cameras
- Lidar and ToF
- Motion & Orientation Sensors
- Pressure Sensors
- Temperature & Humidity Sensors
- 3D Depth cameras

Power Conversion

- Linear / Switching regulators
- Power modules
- Supervisors
- Universal PMICs
- Battery Chargers
- Wall mount / Desktop Power Supplies
- Open Frame & Enclosed Power Supplies
- Medical Grade Power Supplies
- IPC Power Supplies
- AC-DC Power Supplies
- PV Inverters
- DC-DC Converters
- Power Adapters
- Power Filters
- Wireless Chargers

Test and Measurement

- Vector Network Analyzer
- Radiation Measurement System
- Cellular Network Analyzers

Connectors and Cables

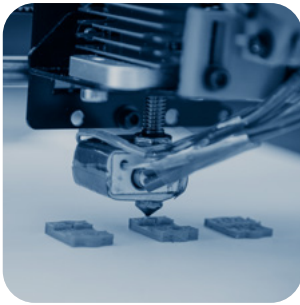

- EV-charging sockets and cables
- Terminal Blocks
- Wire to Board
- Board to Board
- Circular Connectors
- I/O Connectors
- RF Connectors
- Power Jacks
- Data Cables
- FFC Cables
- RF Cables
- Custom Cable Assemblies
- Memory & SIM Card sockets

TOP-electronics can supply electronics for every application in diverse markets.

We offer tailored solutions for each market's unique challenges. Known for our value-added services, TOP-electronics supports design teams from concept to production, driving innovation, safety, and efficiency.

Let the TOP-team support you to enhance your industry's performance.
